### EXAMINER'S AMENDMENT

1. An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 3/13/05, Mark Morley requested an extension of time for 3 MONTH(S) and authorized the Director to charge Deposit Account No. 11-1410 the required fee of \$1020.00 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Note that no new and proper PTO-948 has been submitted, and that Blast results (even as it relates to newly submitted Exhibit 1 concerning various WIPO patents) still do not constitute true publications, and therefore remain improper citations, for the reasons made of record in Paper No: 20040909. The information has been considered to the extent possible. However, no direct comparisons with that claimed have been provided for reasonable and complete consideration by the Examiner. Thus, they still will not be printed on the face of the patent issuing from this application. Note further that the WIPO patents in Exhibit 1 have not been submitted for full consideration on a properly executed PTO-948. Nor has copies of such been provided for consideration by the Examiner.

2. The application has been amended as follows:

The title at the top of page 1 has been changed to:

--Anti-PRO 4405 Antibodies---

Claim 22 has been amended to:

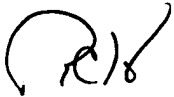

--An isolated antibody that [specifically] binds to the polypeptide of SEQ ID NO: 45.---

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Robert Hayes whose telephone number is (571) 272-0885. The examiner can normally be reached on Monday through Thursday, and alternate Fridays, from 8:30 AM to 5:30 PM.

Art Unit: 1647

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brenda Brumback, can be reached on (571) 272-0961. The fax phone number for this Group is (571) 273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
